## WHAT OUR CLIENT SAID

Beyond the day-to-day oversight of Bretom's accounts, Damian has provided me with proactive and practical advice that has guided the way our agency is run. His knowledge and understanding of SME's has meant that not only are we complying with the rules and regulations of accounting practice, but that our key business decisions are made off the back of effective management reporting and insight. For me, Sakura's services have been faultless and Damian's support is invaluable – I'd highly recommend both him and the team.
